History of Contraception

- Published continuously since January 1970
- Commitment to rapid turn around
- Historical perspective
- All issues are available online to subscribers
Method of Article Selection

- 10 most frequently downloaded articles from 2 lists (9/2011 - 7/2012)
- 2 lists (Journal & Science Direct)
- 3 themes emerged
- For each theme the top article from each list was chosen
- The third article was the next highest ranking article (on that theme) on either list
Benefits & Risks of Hormonal Contraception

1- The benefits and risks of using a levonorgestrel-releasing intrauterine system for contraception

2- Current issues and available options in combined hormonal contraception

3- Contraceptive vaginal ring treatment of heavy menstrual bleeding: a randomized controlled trial with norethisterone
Medical Effects of Hormonal Contraception - I

1- Oral contraceptive formulation and risk of breast cancer

2- Ophthalmic migraines and combined hormonal contraceptives
Medical Effects of Hormonal Contraception - II

3- The effect of obesity and low-dose oral contraceptives on carbohydrate and lipid metabolism

4- Can we identify women at risk of pregnancy despite using emergency contraception? Data from randomized trials of ulipristal acetate and levonorgestrel
Unintended Pregnancy & Abortion

1- Unintended pregnancy in the United States incidence and disparities, 2006

2- History of the Chinese family planning program: 1970-2010
   Wang C. 2012;85:563-569.

3- How women anticipate coping after an abortion
Thank you
