- 16 Confirmed Poster Presentations

HISTORY OF THE REPRODUCTIVE HEALTH MEETING

The powerful partnership behind this meeting is one of the key reasons that *Reproductive Health* is such a successful and popular conference. Planned Parenthood[®] Federation of America (PPFA) and the Association of Reproductive Health Professionals (ARHP) have hosted annual meetings together since the early 1960s. In 1999, the PPFA National Medical Committee (PPFANMC) and ARHP held their first joint conference in Dallas, Texas. The partnership proved to be a great fit, and the PPFANMC has coordinated with the *Reproductive Health* meeting for a decade now.

The Society of Family Planning (SFP) was established in 2004 and joined the *Reproductive Health* partnership the following year. SFP brings a unique expertise in reproductive health research and scholarship to the partnership. *Reproductive Health 2009* is the fifth annual meeting co-hosted by these three venerable organizations.

ABOUT THE CONFERENCE PARTNERS

The Association of Reproductive Health Professionals (ARHP) is a different kind of medical association. Our members define reproductive health in broad terms and recognize that the best health care is delivered through a team of professionals partnering with an informed patient. We are the association that brings together health care professionals across disciplines and specialties

for evidence-based training and network building among committed colleagues. Our mission is

education. ARHP produces accredited, evidence-based programs for health care professionals across a broad range of topics. ARHP members are passionate about science and demand rigorous

standards for peer-reviewed data in educational programs and integrity in patient care.

Planned Parenthood® Federation of America (PPFA) is the nation's leading sexual and reproductive health care provider and advocate. PPFA provides comprehensive reproductive and related health care services, advocates public policies that support its mission, provides educational programs, and promotes research and technology in reproductive health care. PPFA's National Medical Committee hosts its annual meeting as part of *Reproductive Health 2009*.

Incorporated in 2004, the **Society of Family Planning (SFP)** is an academic society that advances family planning research and education. With more than 215 fellows, junior fellows, and candidate fellows, SFP seeks to cultivate a collaborative and supportive environment to foster scholarly activity among junior and experienced researchers. SFP also provides evidence-based clinical guidelines to improve health care in the areas of contraception and abortion, supplies expertise in the field with respect to scientific abstract review, and funds an annual research grants program for fellows committed to excellence in family planning research.

Welcome to Los Angeles, and thank you for being part of *Reproductive Health 2009*. The Association of Reproductive Health Professionals (ARHP), the National Medical Committee of Planned Parenthood® Federation of America (PPFANMC), and the Society of Family Planning (SFP) are proud of our continued partnership to bring you this unique meeting. Our goal is to deliver the combination of content and community that can't be found at any other scientific meeting.

In many ways, it has been a tough year. We've mourned the loss of several luminaries in our field, including the devastating murder of Dr. George Tiller. The right to safe abortion continues to be under attack, most recently in the virulent debates over health care reform. The struggling economy has affected all of us, heightening anxieties in our personal and professional lives. As the organizers of this longstanding meeting, it brings us great satisfaction that, despite the recession challenges, we are on track to have record attendance at this year's conference. Thank you for your commitment to the *Reproductive Health* meeting as your community for learning, networking, support, and inspiration year after year.

A few new and noteworthy features of Reproductive Health 2009:

- **Bigger and better.** One of the major themes of this year's meeting is more, more, more. In addition to our delightfully high attendance, we are featuring more scientific abstracts than ever before. You will find more than 90 poster abstracts on display in the exhibit hall, which is adjacent to the plenary room. We are also featuring more award winners speaking in the plenary sessions so all attendees can enjoy presentations from our five renowned honorees.
- **Streamlined system for evaluation and credit.** We have instituted a more efficient and eco-friendly process for electronically gathering conference evaluations, facilitating claiming of continuing education (CE) credits, and distributing certificates. Post-conference, you will receive an e-mail with a link to the meeting evaluation. At the end of the evaluation, you will find a link directing you to claim your CE credits. Once you have claimed the number of credits commensurate with your participation, your certificate will arrive via e-mail in about four weeks. Voilà!
- **Reproductive Health is getting greener.** In 2005, we launched our first "green conference" initiative and are proud to ramp up efforts in 2009 to put our eco-friendly values in practice. To further reduce the environmental impact of this meeting, we are no longer wasting reams of paper on printing a full syllabus for every attendee. Registrants can access the conference presentations online and choose what to print. Also, we are cutting back on plastic bottles and packaged lunches and promoting an extensive recycling effort. Be sure to submit your feedback and ideas on your evaluation to help us continue to reduce waste and conserve resources.

Staff members from each partner organization are here to assist you and answer questions. You can find us at the registration desk, in attendance at every conference event, or wandering the exhibit hall wearing a name badge with a blue "staff" ribbon. Thank you for participating in *Reproductive Health 2009* and for being a part of this passionate and committed community of reproductive health professionals.

To a great meeting-

Vanjue Am

Wayne C. Shields President and CEO, ARHP

Vanessa Cullins, MD, MPH, MBA Vice President for Medical Affairs, PPFA

Jusan Hinz

Susan Higginbotham, MEd Executive Director, SFP

LEARNING OUTCOMES

At the conclusion of *Reproductive Health* 2009, participants should be able to:

- Demonstrate newly acquired knowledge, understanding, and skills when diagnosing and treating men, women, and adolescents for reproductive health conditions
- Impart improved guidance to patients on general reproductive health and family planning, including lessons learned from scientific research in the United States and abroad
- Demonstrate effective communication and counseling skills about reproductive health with patients and patients' families
- Incorporate an awareness of current social, political, and legal issues affecting reproductive health care into professional practice

CONCURRENT, ACCREDITED PRE-CONFERENCE SESSIONS

Emerging Topics in Adolescent Health

At the conclusion of this educational session, participants should be able to:

- Navigate the Web-based resource for teens, www.Thatsnotcool.com, to address textual harassment and the digital line
- Navigate the Web-based resource for teens and young adults, www.kNOwmoresaymore.org, to address reproductive control
- Identify key factors influencing risky decision making during adolescence
- Identify key data concerning risky adolescent behavior
- Identify current models and theories explaining risk taking in adolescence, with an emphasis on fuzzy-trace theory
- Empirically list supported recommendations for policy and practice in reducing risky adolescent behavior

IUC: Standard Insertion and Special Cases

At the conclusion of this session, participants should be able to:

- Name the two forms of intrauterine contraception currently available in the United States
- State efficacy associated with intrauterine contraception compared with other contraceptive methods
- List selection criteria for appropriate candidates for intrauterine contraception
- Identify two possible side effects of intrauterine contraception
- Provide pain management for adolescents and nulligravidas during IUD insertion
- Use special techniques to visualize and access the cervix when needed
- Appropriately select patients for IUC after spontaneous or induced abortion
- Discuss strategies for management and follow-up after IUD insertion

Case Studies on Sexually Transmitted Infections in Women

At the conclusion of this session, participants should be able to:

- Identify key patient information to be obtained in a sexual history and develop skills to obtain this information in an age-appropriate, culturally competent manner
- Describe clinical presentation and management strategies for chlamydia, gonorrhea, and their related syndromes of cervicitis and pelvic inflammatory disease
- Properly differentiate causes of abnormal vaginal discharge
- List three new developments in managing genital herpes and HPV-associated disease
- Apply simple approaches to implementing client-centered risk-reduction counseling

FINANCIAL DISCLOSURE INFORMATION

Faculty and Moderators

Bailey: Consultant for Bayer, Schering-Plough Berarducci: Receives grants/research support from Proctor & Gamble; is a speaker for Sanofi-Aventis

Creinin: Speaker for Schering-Plough

Mishell: Consultant for Bayer, Schering-Plough, and Teva

Rodriguez: Speaker for Duramed and Schering-Plough

Shulman: Receives grants/research support from Bayer; is a consultant for Schering-Plough, Duramed, and Ortho; and is a speaker for Bayer, Schering-Plough, Duramed, and Ortho

Bauer, Camp, Clark, Córdoba, Darroch, Espey, Estrada, Finer, Fjerstad, Gabelnick, Garcia, Gilbert, Gilliam, Godfrey, Guerry, Haider, Harper, Harris, Hatcher, Hathaway, Janssen, Joffe, Jones, Jordan, Kulberg, Levenson, Lindahl, Low Dog, Madsen, Miller, Russo, Shen, Speidel, Stern, Trussell, and Winikoff have no financial interests or affiliations to disclose.

Oral Abstract Presenters

Postlethwaite: Receives grants/research support from Bayer **Westhoff:** Receives grants/research support from Duramed; is a consultant for Duramed, Bayer, and Schering-Plough

Blum, Dean, Dehlendorf, Dennis, Graseck, Grossman, Harper, Jones, Perriera, Pittman, Racek, Sietstra, and Soliman have no financial interests or affiliations to disclose.

Oral Abstract Discussants:

Drey: Speaker for Schering-Plough

Goodman: Speaker for Schering-Plough

Kaunitz: Receives grants/research support from Ortho, Medical Diagnostic Laboratories, Schering-Plough, Proctor & Gamble, and Teva; is a speaker and/ or consultant for Bayer, Ortho, Merck, Schering-Plough, Proctor & Gamble, and

ACCREDITATION

Nurse-Midwives

AMA PRA Category 1 Credits[™] are accepted by the Continuing Competency Assessment Program of the American College of Nurse-Midwives for programs relevant to nurse-widwifery.

Nurse Practitioners

This educational activity will be approved by the Continuing Education Approval Program of the National Association of Nurse Practitioners in Women's Health. It is estimated that NPWH will designate 14.5 contact hours for the general conference, including 7 pharmacology hours, and 3.5 contact hours for each pre-conference session, including 1 pharmacology hour.

Pharmacists

The Association of Reproductive Health Professionals (ARHP) is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education.

Pre-conference Sessions

This program provides 3.5 (.35 CEUs) contact hours of continuing pharmacy education credit as recognized by the Accreditation Council for Pharmacy Education. The assigned universal program number for RH 2009 pre-con: IUC: Standard Insertion and Special Cases is 0463-0000-09-018-L04-P; RH 2009 pre-con: Case Studies on Sexually Transmitted Infections in Women is 0463-0000-09-019-L04-P; RH 2009 pre-con: Emerging Topics in Adolescent Health is 0463-0000-09-020-L04-P. Each pharmacist must complete the post-test to receive credit for this activity.

General Conference

This program provides 14.5 (1.45 CEUs) contact hours of continuing pharmacy education credit as recognized by the Accreditation Council for Pharmacy Education. The assigned universal program number is 0463-0000-09-021-L04-P. Each pharmacist must complete the post-test to receive credit for this activity.

Teva; owns stock/is a shareholder in Becton Dickinson and Sanofi-Aventis Lichtenberg: Owns stock/is a shareholder in Family Management Inc. and Burlington Commercial Insurance Company

Turok: Receives grants/research support from Duramed; is a speaker for Schering-Plough

Westhoff: Receives grants/research support from Duramed; is a consultant for Duramed, Bayer, and Schering-Plough

Fjerstad, Foster, Godfrey, Goldberg, Hammond, Harwood, Kottke, Teal, and Trussell have no financial interests or affiliations to disclose.

Planning Committee

Gilliam: Receives grants/research support from Schering-Plough Kaneshiro: Receives grants/research support from Wyeth; is a consultant for IPAS

Deal, Downing, Espey, Fjerstad, Gordon, Haider, Hammond, Hathaway, Higginbotham, Huggins, Jordan, Kulberg, Lindahl, Moos, Rubin, Schwimmer, Shea, Stern, and White have no financial interests or affiliations to disclose.

ARHP Staff

Brenner, C. Brown, S. Brown, Challender, Cohen, Drahan, Everitt, Glispie, Gordon, Harris, Henry, Kennedy, Jordan, Korman, March, Riessman, Robbins, Sager, Shields, Sowecke, Swann, and Tyler have no financial interests or affiliations to disclose.

PPFA Staff

Cullins, Debevec, Eldredge-Martin, Graziani, Majkowski, Morfesis, Nucatola, Talmont, and Worthington: Receive grants/research support from Merck, GSK, Hologic, QIAGEN, Orasure, Graceway, Ortho, Wyeth, Watson, and HRA-Pharma; on the advisory board for Schering-Plough, Ortho

Shea and Wilhelm have no financial interests or affiliations to disclose.

SFP Staff

Higginbotham, Polonsky, and Sot have no financial interests or affiliations to disclose.

Physician Assistants

The American Academy of Physician Assistants accepts AMA PRA Category 1 Credits[™] towards AAPA CME credit.

Physicians

The Association of Reproductive Health Professionals is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Pre-conference Sessions

The Association of Reproductive Health Professionals designates this educational activity for a maximum of 3.5 *AMA PRA Category 1 Credits*[™]. Physicians should only claim credit commensurate with the extent of their participation in the activity.

This activity has been reviewed and is acceptable for up to 3.50 Prescribed credits by the American Academy of Family Physicians.

General Conference

The Association of Reproductive Health Professionals designates this educational activity for a maximum of 14.5 *AMA PRA Category 1 Credits*[®]. Physicians should only claim credit commensurate with the extent of their participation in the activity.

This activity has been reviewed and is acceptable for up to 14.50 Prescribed credits by the American Academy of Family Physicians.

ARHP has applied for ACOG cognate hours (Formal Learning).

CONFERENCE MAP

HOW DO I GET MY CONTINUING EDUCATION CREDITS FOR REPRODUCTIVE HEALTH 2009?

A more efficient and eco-friendly process is now in place for electronically gathering conference evaluations, facilitating participants' claiming of continuing education (CE) credits, and distributing certificates.

To Receive Your CE Certificate for the General Conference:

- Immediately following the meeting, check your e-mail for a message from the conference staff
- Click on the link provided and complete the conference evaluation
- At the end of the evaluation, click on the link directing you to claim your CE credits. Participants should only claim credit commensurate with the extent of their participation in the activity. You must claim the actual number of credits in order to receive CE credit and a certificate
- Your CE certificate will be delivered via e-mail within 4 weeks of the meeting

To Receive Your CE Certificate for a Pre-conference Session:

- At the conclusion of your pre-conference session, complete the evaluation and claim your credits
- Your pre-conference CE certificate will be delivered via e-mail within 4 weeks of the pre-conference

Orientation

SPECIAL ASSISTANCE

The *Reproductive Health 2009* staff wishes to ensure that no individual with a disability is excluded, denied services, segregated, or otherwise treated differently from other individuals because of the absence of auxiliary aids or services identified in the Americans with Disabilities Act. Please notify us of your needs at the registration desk on the Mezzanine level.

AWARDS

CUSHNER LECTURESHIP

Imagining Change: The Role of Science in Getting from Here to There

Beverly Winikoff, MD, MPH Thursday, October 1, 8:00 am

The Cushner Lectureship honors Irvin M. Cushner, MD, MPH, an influential leader in the fields of modern reproductive health care and public health and a true champion of reproductive rights and social welfare in the United States. The award is given annually to a layperson, public figure, or health care professional who has helped raise awareness of health public policy issues. The lecture addresses a pressing issue in the field of health care, especially as it may pertain to reproductive health.

THE LIFETIME ACHIEVEMENT AWARD FOR FAMILY PLANNING *A Century of Contraceptive Use in America: Lessons from the Past, Challenges of the Future*

Jacqueline E. Darroch, PhD Thursday, October 1, 2:00 pm

The Award for Lifetime Contributions in Family Planning was created in 2005 by the Society of Family Planning. The award is presented annually to honor those outstanding individuals whose cumulative research has reached the highest level of importance in the field. Recipients of this award have devoted their scientific and medical careers to the furtherance of women's reproductive choice and health. This year, the Society of Family Planning is pleased to present this award to Jacqueline E. Darroch, PhD, an independent researcher in social demography and senior fellow at the Guttmacher Institute, where she has been involved since 1978.

ALLAN ROSENFIELD AWARD FOR LIFETIME CONTRIBUTIONS TO INTERNATIONAL FAMILY PLANNING Family Planning: Progress, Lessons Learned, and the Unfinished Agenda

J. Joseph Speidel, MD, MPH Thursday, October 1, 2:30 pm

The Society of Family Planning is delighted to present the third annual Allan Rosenfield Award for Lifetime Contributions to International Family Planning. This award was created to pay homage to the exceptional research, authority, and dedication of its namesake and first recipient, Dr. Allan Rosenfield, and to his invaluable contributions to the health of women worldwide. This year, the award will be presented to J. Joseph Speidel, MD, MPH, professor, Department of Obstetrics, Gynecology and Reproductive Sciences and director for communication, development, and external relations at the Bixby Center for Global Reproductive Health, University of California, San Francisco.

GUTTMACHER LECTURESHIP The Challenge of Providing Dual Protection

Henry L. Gabelnick, PhD Friday, October 2, 8:00 am

Alan F. Guttmacher, MD, was an obstetrician/gynecologist who devoted his career to the social and medical welfare of women and minorities. Dr. Guttmacher saw medicine as a profession that should contribute to the solution of society's problems and was known as a humanist with a strong social conscience. In his honor, ARHP created the Guttmacher Lectureship, awarded each year to a health care provider or scientist who has been a major contributor to the field of reproductive health. The lecture addresses a major scientific advancement that has significant reproductive health resonance in both the scientific and medical communities.

PHOTO AUTHORIZATION

By attending *Reproductive Health 2009*, you acknowledge that you may appear in photographs taken by conference staff. All conference photographs are eligible for promotional use at the discretion of the conference staff. Photographs posted to the conference Web site and Conference Photo Gallery (via Flickr) will be removed upon request.

BURNHILL LECTURESHIP

When Does Personhood Begin? The Biology and the Rhetoric

Scott F. Gilbert, MA, PhD Saturday, October 3, 8:00 am

This annual award honors Michael S. Burnhill, MD, DMSc, who served as Planned Parenthood[®] Federation of America's (PPFA) vice president for medical affairs and was a founding member of ARHP. Dr. Burnhill was instrumental in linking ARHP with the PPFA National Medical Committee and promoted their collaboration of joint sessions at this annual meeting. In honor of Dr. Burnhill, PPFA and ARHP established the Michael S. Burnhill Memorial Lectureship, which honors his legacy with a presentation emphasizing innovation and leadership in the field of women's reproductive health.

GARY STEWART SCHOLARSHIP FOR RESEARCH IN PUBLIC HEALTH

Kristen Shellenberg, MPH Presented at the Poster and Awards Reception on Friday, October 2, 4:00 pm

ARHP launched the Stewart Scholarship seven years ago to honor the memory and contributions of Gary Stewart, MS, MPH, to the field of reproductive health. Dr. Stewart was a leading international medical educator and advocate who served as a mentor to countless rising public health professionals. This award goes to an outstanding public health graduate student working on research projects to address current issues in the field of public health, especially as it may pertain to reproductive health.

MIRIAM MANISOFF AWARD

Victoria C. Fletcher, RN, MSN, CNM, FACNM Planned Parenthood of the Great Northwest

Presented at the PPFA National Medical Conference Luncheon Saturday, October 3, 1:00 pm

The Miriam Manisoff Award was established in 1982 in recognition of Ms. Manisoff, a true leader, who started the PPFA nurse practitioner program. PPFA carries on this tradition by honoring an advanced practice clinician employed by a Planned Parenthood affiliate who has demonstrated a significant contribution to the advancement of the roles of advanced practice clinicians in the areas of clinical practice, scholarship, and/or leadership.

SYLVIA CLARK AWARD

Virginia League for Planned Parenthood Presented at the PPFA National Medical Conference Luncheon Saturday, October 3, 1:00 pm

The Sylvia Clark Award: Creativity in Clinical Services is presented annually at the PPFA National Medical Conference to honor the clinical services provider (or team) from a Planned Parenthood affiliate who, through her or his creativity, has demonstrated commitment to Planned Parenthood's vision and mission.

PIONEER AND LEADER AWARD

Planned Parenthood of the Heartland

Presented at the PPFA Clinical Issues Presentation Saturday, October 3, 9:45 am

The Pioneer and Leader Award was created in 2004. The award is given to an affiliate that demonstrates exemplary leadership in pioneering a new technology or strategy for accomplishing the Planned Parenthood mission.

CONFIRMED POSTER PRESENTATIONS

Posters will be displayed all day Thursday, October 1 and Friday, October 2

- P1 Women Seeking Abortion Underreport Gestational Age by an Average of 1 Week Based on Last Menstrual Period Compared to Ultrasound Dating
- **P2** Advanced Practice Clinicians As Abortion Providers: Preliminary Findings from the California Primary Care Initiative
- **P3** Outpatient Surgical Miscarriage Management: Current Practice among Family Medicine Residents and Faculty in Washington State
- **P4** Patterns of Contraceptive Use Before and After an Abortion: Results from a Large Nationally Representative Survey of Women Undergoing an Abortion in France
- P5 Changes in Fertility among Young Ethiopian Immigrants in Israel: Abortion Levels Over a Decade
- **P6** Impact of Formal Family Planning Training on Ob/Gyn Residents', Skills in Uterine Aspiration and Contraception Provision
- **P7** Providing Contraception to Patients in the Abortion Care Setting: Practices and Barriers
- P8 Abortion Training in Ob/Gyn Residency Programs: Results of a National Survey
- P9 Digoxin-induced Fetal Death Increases Surgeon-perceived Ease of Second-trimester Surgical Abortion
- P10 Second-trimester Abortion Technique Study: A Prospective Cohort Study
- P11 Influence of Induced Abortion Training on Attitudes and Treatment Patterns for Early Pregnancy Failure
- **P12** Safety of Relative High-dose Vasopressin as a Cervical Block in Dilation and Evacuation
- P13 Postpartum Family Planning Needs Assessment in Cap Haitien, Haiti
- P14 Contraceptive Use, Recall and Barriers
- P15 Incomplete and Failed Abortion Following Immediate or Delayed Postaspiration IUD Insertion
- **P16** Immediate Intrauterine Device Insertion Following Suction Aspiration Between 5 and 12 Weeks' Gestation Increases Rates of Insertion and Utilization Compared to Scheduled Delayed Insertion
- P17 US Family Physicians' Knowledge, Attitude and Practice With Intrauterine Contraception
- P18 Provision of Contraceptive Services to Diabetic Women of Reproductive Age
- **P19** Cycle Control with a 21- vs. a 24-Day Oral Contraceptive Regimen: Influence of Previous Hormonal Exposure
- **P20** Provision of Family Planning Services to Female Veterans Prescribed Teratogenic Medications
- P21 Breastfeeding Continuation among Women Using the Levonorgestrel-releasing Intrauterine Device After Vaginal Delivery
- P22 A Randomized Trial of Postplacental Compared to Delayed Insertion of the Levonorgestrel-releasing Intrauterine Device After Vaginal Delivery
- **P23** Outcomes of Transcervical Hysteroscopic Sterilization in an Urban Academic Medical Center
- P24 Trends in Tubal Sterilization and Intrauterine Device Uptake at an Urban Academic Medical Center
- **P25** Differences in Knowledge May Contribute to Racial Variation in Tubal Sterilization Rates

- P26 Does Emergency Contraception Choice Impact Effective Contraception 1 Month Later? A Prospective Comparison of the Copper IUD and Oral Levonorgestrel
- **P27** A Survey of Women Obtaining Emergency Contraception: Are They Willing to Use the Copper IUD?
- P28 Postpartum Contraception: Needs vs. Reality
- P29 Two-week Postpartum Implanon Insertion Is Not Equivalent to Immediate Postpartum LARC
- P30 Pilot Study of Vaginal Estrogen Supplementation during DMPA Initiation
- **P31** Providing Contraception and Contraceptive Counseling to Adolescents: Perspectives of Residents from Three Specialties
- P32 Preferences for Decision Making about Contraception among Healthy Adult Women
- **P33** The Post Abortion Progestin Contraception Study: Which Demographic Factors Predict Choice of Long-acting, Reversible Contraception?
- P34 Duration of Breastfeeding Is Similar in Postpartum Women Using Combination Oral Contraceptives Compared to Those Using Progestin-only Oral Contraceptives
- **P35** Barriers to Uptake of the Intrauterine Device (IUD) among Postpartum African American Adolescents
- **P36** Time to Pregnancy in a Cohort of Low-income, Urban Latinas: Does Diabetes Matter?
- **P37** A Multi Center Randomized Controlled Feasibility Trial of Levonorgestrel-releasing Intrauterine System Compared to the Copper T380A among Adolescents Ages 14-18
- **P38** Immediate versus Delayed Insertion of the Levonorgestrel-releasing Intrauterine Device Following Dilation and Evacuation: A Randomized Controlled Trial
- **P39** "Why Does My Partner Feel Strings?" and Other Questions Posed by Women Who Had IUC Placed After Their Abortions
- P40 Uterine Infection Following Immediate or Delayed Post-aspiration Intrauterine Device (IUD) Insertion
- P41 Ovarian Suppression during Oral Contraceptive Use in Normal-weight and Obese Women
- P42 Intrauterine Contraception for Adolescents: Where Are the Pediatricians?
- P43 Patterns of Long-term Contraceptive Methods and Depo-provera Use among Women Attending Korle-Bu Teaching Hospital, Accra
- P44 Injectable Contraception Use among Salvadoran Women: An In-depth Analysis of Attitudes and Experiences
- **P45** Trends and Determinants of Hormonal Contraceptive Use among HIV-infected Women in Rakai, Uganda, 1994–2005
- P46 Malpositioned IUDs: Risk Factors, Outcomes and Future Pregnancies
- **P47** Determinants of Early Contraceptive Discontinuation for Method-related Reasons: Results from a Population-based Cohort of French Women
- **P48** Contraceptive Counseling and Utilization in Women Who Underwent Bariatric Surgery
- **P49** Levonorgestrel Intrauterine System and Medroxyprogesterone Acetate for Treatment of Heavy Menstrual Bleeding

CONFIRMED POSTER PRESENTATIONS

Posters will be displayed all day Thursday, October 1 and Friday, October 2

- P50 Unmarried Young Adults' Contraceptive Knowledge and Attitudes
- P51 Recommendations for Long-acting Reversible Contraception: How Do the Race/Ethnicity and Socioeconomic Status of Patients Affect Providers' Decisions?
- **P52** Women's Perceptions of Advantages and Disadvantages of Moving Oral Contraceptives Over the Counter
- **P53** Introduction of Post Placental/Partum IUD Insertion in Lusaka, Zambia: Feasibility of Training Nurse Midwives
- P54 Need for Emergency Contraception among Female Patients Seeking Sexually Transmitted Infection Clinical Services in a Public Health Setting
- **P55** Effects of Patch versus Oral Contraception on Coagulation Factors: A Randomized Crossover Study
- P56 Contraceptive Counseling and Ambivalence Towards Pregnancy in Primary Care Settings
- **P57** Maintenance of Confidence in IUD Counseling and Insertion After Incorporating Didactic Teaching and IUD Insertion Techniques into the Third Year Medical Student Gynecologic Skills Workshop
- **P58** Effectiveness of an Extended-regimen Oral Contraceptive for the Treatment of Moderate to Severe Pelvic Pain in Adolescents
- **P59** Disparities in IUD Use between Physicians and Non Physicians: A Survey of IUD Use in a Large University Population
- P60 IUD-related Knowledge and Attitudes amongst Women's Healthcare Providers in El Salvador
- **P61** Knowledge of Intrauterine Contraception: A Survey of Women in the St. Louis Region
- P62 Pregnancy Intention and Contraceptive Decision-making
- **P63** Effects of Ethinylestradiol and Estradiol on Oxidative Stress and Nitric Oxide Synthesis in Immortalized Human Endothelial Cell Line ECV304
- **P64** Changes in Insulin Sensitivity and B-Cell Responsiveness in Obese Women Using Depomedroxyprogesterone Acetate
- **P65** Chlormadinone Acetate 2mg/Ethinylestradiol 0.03mg Did Not Impair Vascular Function in Healthy Women
- P66 Contraceptive Practices among Adolescents Who Experienced an Unintended Birth
- **P67** Hormonal Contraceptive Method Choice among Young Low-income Women: How Strong is the Provider Effect?
- P68 Failure to Return for Intrauterine Device Insertion After Initial Clinic Visit
- **P69** Association between Intrauterine Contraception and Pelvic Inflammatory Disease: An Analysis of the 2002 National Survey of Family Growth
- **P70** Access and Barriers to Reversible Contraception among Recently Arrested Women in San Francisco
- **P71** Within-cycle Variation in Coagulation Factors Seen with Patch and Oral Contraception: A Randomized Crossover Study
- P72 A Randomized Controlled Trial of the Impact of Advanced Supply of Emergency Contraception on Postpartum Teens
- **P73** Are Tampon Users More Likely to Choose the Contraceptive Vaginal Ring than Combined Oral Contraceptives?

- **P74** The Association of Clients' Experiences at Their First Family Planning Visit and Their Perceptions of Service Quality
- P75 Contraceptive Use among Women on a Tanzanian Sugar Plantation
- **P76** Contraceptives in College: Undergraduates' Usage Patterns and Attitudes Toward Pregnancy Prevention Methods
- **P77** The Well Woman Visit Lecture: An Opportunity for Family Planning Education at a Faith-based Medical Institution
- **P78** Do HIV-infected Women Want to Discuss Fertility Plans with Providers; and Are Those Conversations Occurring?
- P79 Integration of HIV Prevention and Reproductive Health Services
- **P80** Social and Behavioral Impact of HIV/AIDS on Sudanese Patients After the Diagnosis
- P81 Does Salpingectomy Affect Ovarian Response with In Vitro Fertilization?
- **P82** U USE IT (University Undergraduates' Sexual Education—Investigating Teachings Survey) to Evaluate Sexual Health Education and Practice
- **P83** Sexual Experiences of Young People in Uganda: Does Orphanhood Play a Role?
- **P84** U USE IT (University Undergraduates' Sexual Education–Investigating Teachings Survey) to Evaluate Students' Perceptions of Virginity
- **P85** Forced First Sex, Sexual Behavior and Sexually Transmitted Diseases among Women in Uganda
- **P86** Implementing Patient-delivered Partner Therapy for Chlamydia Infection at an Urban Family Planning Clinic
- P87 The Inflammatory Effects of Two Vaginal Gels on the Reproductive Tract
- **P88** Does Type of Underwear Worn Impact the Incidence of Non-sexually Transmitted Urogenital Infections? (The Thong Study)
- **P89** What is the Extent of Family Planning Training in Family Medicine Residencies?
- **P90** Human Decidual Macrophages Phagocytose *Clostridium sordellii* through Class A and B Scavenger Receptors
- **P91** Defining Physician Advocacy for Adolescent Reproductive Health: Results from a Mixed Methods Study with Adolescent Medicine Physicians
- **P92** Role and Relevance: Urban Adolescent Males, the Primary Care Provider and Provision of Confidential Care
- **P93** Trends and Determinants of Reproductive Health Service Use among Young Women in the United States
- **P94** Racial Differences in Attitudes towards Pregnancy and Motherhood in Teen and Young Women
- **P95** Disseminating the HPV Vaccine to Women of Color: Implications for Reproductive Health
- P96 Attitude of Circumcised Sudanese Women towards Mutilating Their Daughters
- P97 Unintended Pregnancy in the United States at the State Level
- P98 Reproductive Health in Rural Sudan: A Population Based Survey
- **P99** College Students' Sexual Health: Behaviors, STD Testing and Prevention, and Pap Smear Knowledge

EN'S HEALTH

Women's Health Issues is a peer-reviewed, bimonthly, multidisciplinary journal that publishes research and review manuscripts related to women's health care and policy. As the official journal of the Jacobs Institute of Women's Health, the journal seeks to inform health services researchers, health care and public health professionals, social scientists, policymakers, and others concerned with women's health. Please visit www.whijournal.com to subscribe or submit a manuscript for consideration.

Free Special Supplement Issue Available Online: With support from the U.S. Centers for Disease Control and Prevention, WHI published a special issue on the topic of Policy & Financing Issues for Preconception and Interconception Health in 2008. This issue features peer-reviewed articles on topics such as:

- Private and public insurance coverage of women of reproductive age and preconception and interconception health care services;
- . Public health data on the health of women of reproductive age and preconception and interconception health outcomes and health services;
- Impact on access to preconception and interconception care of programs, such as Healthy Start, community health centers, Title V, and family planning waivers;
- Quality and payment of preconception and interconception care services;
- Disparities in access to and quality of preconception and interception care by women of different ages, ethnic and racial backgrounds, and socioeconomic status.

Focused. Responsive. Collaborative.

The Abortion Access Project (AAP) is a national nonprofit organization made up of healthcare professionals and advocates seeking to address gaps in access to safe abortion care. By emphasizing locally driven, locally relevant goals and solutions to expanding access, AAP catalyzes new strategies within reproductive healthcare and reproductive health activism. We combine an on-the-ground understanding with the perspective and resources of national-level work, allowing each to inform the other.

AAP state-based organizers provide training, technical assistance, legal research, networking opportunities, and information and referrals to clinicians, clinics and medical education programs where access to abortion is especially restricted.

K I'M Sure Let's talk Essure

The in-office solution for permanent birth control

Highly effective - 99.74% efficacy rate at 5-year follow-up* Proven - 6+ years of commercial data, 250,000+ procedures, 170+ publications Easy - Micro-insert placed transcervically in an office setting High patient satisfaction - No incisions, no hormones, no slowing down

> five-year effectiveness was demonstrated in a portion of the women undergoing clinical studies. There continue to be no pregnancies to date among patients who had been enrolled in the Essure phase II and pivotal trials.

Conceptus Inc.

www.essuremd.com

Indications for use: The Essure procedure is used for women who desire permanent birth control (female sterilization) by bilateral occlusion of the fallopian tubes. Contraindications: If a patient is uncertain about her desire to end fertility; pregnant; has terminated or delivered less than 6 weeks before the Essure procedure; has an active or recent upper or lower pelvic infection. Warnings: The Essure procedure is not reversible, and is not suitable for all women. Cautions: Federal law restricts this device to sale by or on the order of a physician; should only be used by physicians who are knowledgeable hysteroscopists and have successfully completed the Essure training program. For a complete description of cautions, warnings, potential adverse events and contraindications see the Essure System Instructions for Use.

Committed to Women's Healthcare

Duramed Pharmaceuticals, an innovator in women's healthcare pharmaceutical products, focuses its product development and marketing activities on products for women.

Since its formation in 2001, Duramed has steadily grown to over 400 employees, 25 marketed products, aggressive corporate development activities, and over a dozen R&D projects in various stages of development.

Duramed Pharmaceuticals, Inc. is the U.S. proprietary (branded) pharmaceutical subsidiary of Barr Pharmaceuticals, Inc., a global specialty pharmaceutical company that operates in more than 30 countries.

Cultivating a collaborative and supportive environment to foster scholarly activity and leadership in the areas of reproductive health and family planning.

Join us!

Help shape the Society and help shape the field. Benefit from SFP research grants, opportunities to network with like-minded colleagues and to be exposed to the latest in family planning research, a subscription to *Contraception*, and the chance to participate in Society committees.

"SFP funded my first foray into basic science research. As a young clinical investigator at an early stage in my career, this was a tremendous opportunity for me to develop skills under close mentorship and to approach clinical research questions from new angles."

—Alison Edelman, MD, MPH

SFP Membership is open to any qualified individual in good professional standing who has an interest in family planning demonstrated through post-doctoral training, a substantial clinical or laboratory practice, or academic presentations and publications within this field. To learn more and apply online: www.societyfp.org

Every year, Planned Parenthood[®] affiliate health centers provide millions of women, men, and teens with a broad range of sexual and reproductive health services and information, including medically accurate sex education, contraception and abortion services, cervical and breast cancer screening, and testing and treatment for sexually transmitted infections.

We commend the women and men who provide care to Planned Parenthood clients in more than 850 affiliate health centers and the members of the PPFA National Medical Committee for volunteering their time in support of PPFA.
